

SAPC e-Note

SAPC e-Note: AMENDMENT OF THE JULY CPD RESULTS RELEASE DATE AND PRE-REGISTRATION EXAMINATION LATE BOOKING DEADLINE

Dear Intern/Tutor/RP,

SAPC e-Note: AMENDMENT OF THE JULY CPD RESULTS RELEASE DATE AND PRE-REGISTRATION EXAMINATION LATE BOOKING DEADLINE

Pharmacist Interns are required to meet specific Continuing Professional Development (CPD) requirements to be allowed to book for the pre-registration examination. Interns in their sixth month of internship are required to submit six (6) CPD entries and be successful in at least three (3) CPD entries to be eligible to write the pre-reg. examination, while interns in their ninth month or those re-attempting the pre-reg. examination are required to submit six (6) CPD entries and be successful in all six (6) CPD entries.

According to the 2023 CPD submission schedule published in the Intern/Tutor Manual, the last date for the release of CPD results is 21 July 2023 and the deadline for late bookings for the examination is 19 July 2023.

This means that interns who become eligible to write the pre-registration examination after the release of CPD results on 21 July 2023 will not be permitted to book to write the examination as the booking period would have been closed.

The Office of the Registrar has amended the July CPD results release date to allow interns who become eligible to write the pre-registration examination after the release date to book to write the pre-registration examination. The dates have been amended as follows:

Activities	Current Dates	New Dates
CPD results release	21 July 2023	19 July 2023
Late booking closes	19 July 2023	21 July 2023

Interns should note that a late booking fee will be payable by interns who book for the pre-registration examination after the normal booking period, including those who become eligible to write the pre-registration examination after the release of the CPD results on 19 July 2023.

Yours sincerely,

VM Tlala
Registrar/CEO
